Dear Keith,

The New Year signals the start of a three-month period we like to refer to as the Window-of-Opportunity Sprint.

And we wanted to make sure you had the chance to make it the best sprint ever!

That's because research shows the people who are the most successful in the FIRST 100-DAYS of the year tend to take very specific steps on a very clear path.

So if you're SERIOUS about accomplishing great things in 2012, you'd be wise to come out of the starting gate fast, focused and fired up.

And keep going at FULL SPEED through at least the end of March.

Why? Because, if you don't make major strides toward achieving your goals from January through the end of March, you're going to be playing catch-up the remainder of the year. And that is one stressful pain in the butt.

With that in mind, our friend Gary Ryan Blair, otherwise known as The GoalsGuy, has put together what we believe to be the most comprehensive approach to goal setting and performance enhancement around. Brian Tracy even says as much.

It's called the 100 Day Challenge and it's all about getting things done, getting MASSIVE results quickly, and STARTING the year with a bang.

Among all of the programs and respected authors we know, this particular program will ensure that you begin 2012 the best way possible!

If you've not already participated in this extraordinary program, we urge you to check it out. It's that good.

We promise you'll be glad — no, make that thrilled — you did.

Sincerely,

Keith and Ilse

P.S. We almost forgot, the best part is you can take it for a **7-day test-drive** and prove to yourself how powerful it really is!
